

ORGANISATION PORTOFOLIO

... About us!

GSS Ilidža is a non-governmental, non-partisan, non-profit humanitarian organization, of a volunteer nature, created in response to the needs of the local community for rescue and action in conditions of weather disasters and inaccessible terrain.

Since its creation in 2010, GSS Ilidža has grown from a small group of enthusiasts into a serious rescue service that currently has 40 members - rescuers.

PROFESSIONALS BY KNOWLEDGE AND COMMITMENT

In its work, GSS Ilidža respects all legislation of BiH, KS, but also international standards in rescue ICAR, ITLS and BLS

GSS Ilidža is directly or indirectly a member of:

- GSSuBiH
- GSS of Sarajevo Canton
- Rescue service from the heights of the Municipality of Ilidža
- ICAR - International Committee for Mountain Rescue
- ECRA - European Commission for Cave Rescue

The members of the GSS Ilidža **neither receive nor ask** for compensation for their work and engagement, they finance all their training and education independently while they currently use the equipment made available by the Municipality of Ilidža.

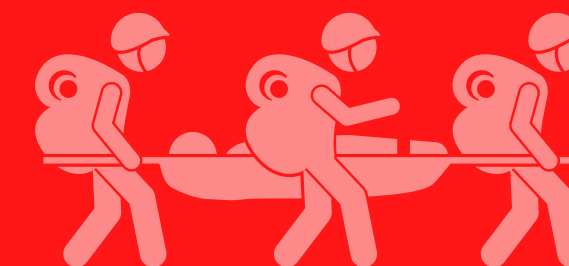

...

OUR MISSION

Our mission is to through preventive activities to increase the level of safety of the citizens of our local community and to help in the recovery of incident situations through search and rescue activities.

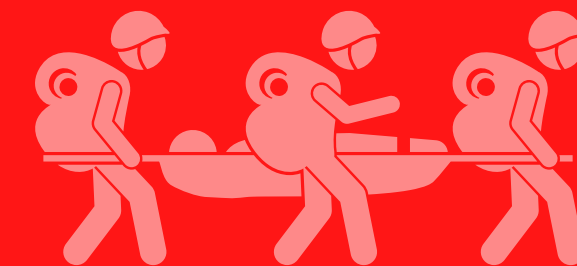

...

OUR VISION

Our vision is a safer society that is capable of taking decisive steps in self-protection and reducing the number of searches with fatal outcome.

Disaster relief and
rescue operations

training

WHAT WE DO?

Core of our activities is divided in 4 scopes but that doesn't mean we are limited to it

ALWAYS READY!

With our knowledge and experience, we are at the disposal of civil structures as a response service to natural disasters, both in the territory of the municipality of Ilidža, as well as in the area of KS and Bosnia and Herzegovina as a whole. The activity on the rehabilitation of COVID-19 was particularly intense

NOVEMBER 2021 FLOOD

Our biggest contribution so far to the rescue and rehabilitation of the consequences during the floods in the area of Ilidža Municipality was huge.

While using borrowed equipment, we rescued and evacuated over 60 people from flooded locations in the municipalities of Ilidža and Novi Grad, helped distribute humanitarian packages in cooperation with CZ Ilidža, and had response teams on the ground for 4 days

DISASTER RELIEF AND RESCUE OPERATIONS

DISASTER RELIEF AND RESCUE OPERATIONS

DISASTER RELIEF AND RESCUE OPERATIONS

KAHRAMANMARASH DEPREM 2023

In February 2023, as part of the capacity response of the Canton of Sarajevo as part of the aid to the Republic of Turkey, 5 members of our station will participate as part of the mixed team of the GSS of the Canton of Sarajevo

Our members led operational and medical rescue teams. They spent 9 tough days on the ground working in coordination with AFAD, the Turkish Army, and members of USAR teams from around the world.

The training experience with which our members left made it possible for them to participate in the rescue and extraction of victims in Hatay, and for this endeavor they were awarded by the municipal, city, and cantonal authorities.

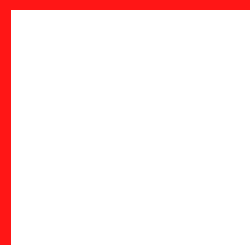

USAR MISSION IN THE REPUBLIC OF TURKIYE 2023

USAR MISSION IN THE REPUBLIC OF TURKIYE 2023

12 YEARS OF EXPERIENCE

From the foundation until today, we have participated in over 200 search and rescue operations in the territory of Bosnia and Herzegovina, of which 55 operations we were a lead organization. The high level of professionalism shown in these actions and the training of our members put us among the most capable GSS stations in Bosnia and Herzegovina.

We have more than 30 trained SAR searchers in our ranks, 5 of whom are in the process of training to become SAR team leaders, as well as one certified SAR manager with experience in conducting SAR operations on land and water.

With a larger budget, the number of certified members, team leaders, and SAR managers would be even higher, and thus the quality of the work performed.

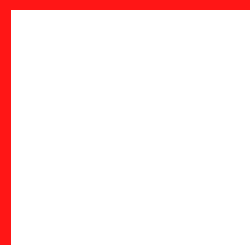

SEARCH AND RESCUE OPERATIONS (SAR)

SEARCH AND RESCUE OPERATIONS (SAR)

FROM COMMUNITY – FOR COMMUNITY

Our members are constantly available to the community they come from. Every year, in cooperation with primary and secondary schools from the Ilidža municipality, we organize a series of workshops to introduce young people to nature, pointing out the dangers in nature and methods of self-help and self-protection of young people during their stay in nature.

Our members are guided by the calculation reached by studies in the USA and the EU that every mark invested in prevention is worth as much as 7 marks invested in correction and rehabilitation.

Until now, we have proven to be a reliable partner in numerous projects and have demonstrated organizational maturity in the execution of activities.

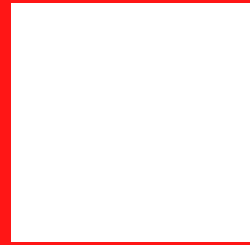

LOCAL COMMUNITY EDUCATION AND CONTRIBUTION

LOCAL COMMUNITY EDUCATION AND CONTRIBUTION

VOLUNTEERS BUT PROFESSIONALS

Our members are volunteers only by the fact that they do not receive any monetary compensation for their work and time.

Our members spend many hours a week and hundreds of marks on their education and training.

The education of lifeguards costs a lot, and we need all possible help from local community structures.

For example, education with the necessary equipment for one rescuer on water and in floods is about 4000 KM, while education and certification for one SAR searcher is about 800 KM.

EDUCATIONS AND TRAININGS

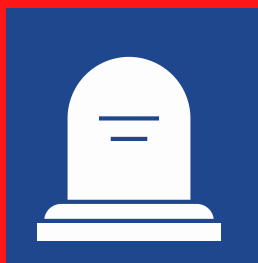

EDUCATIONS AND TRAININGS

OUR GOALS

No fatalities

Every incident caused by human or nature should be without life loss.

Every life matter

Every intervention should be resulted with saving the incident subject or retrieving the body to their family.

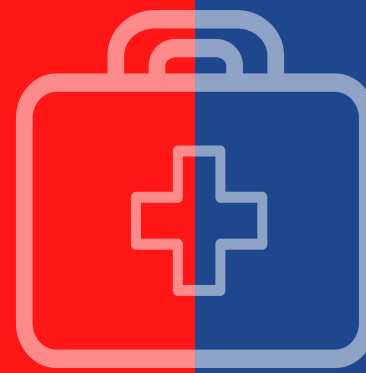

Ilidža – Healthy and clean

All population and tourists in Ilidža deserve to spend life in a healthy and clean environment, risk-free, where they can enjoy the beautiful nature that Ilidža is well known for.

CURRENT YEAR ACTIVITY PLAN

Educations and training continuum

Started and planned activities, especially education, to be completed as soon as the funds for cortization are collected.

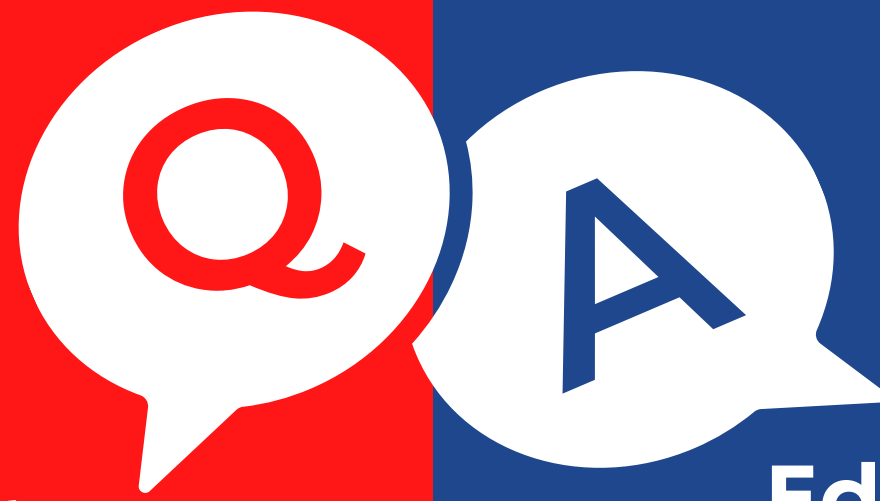

Vehicle and equipement aquisition activities

Continue with our efforts to fundraise for the all terrain vehicle and rescue equipement.

Increase quality of local comunity content

Working on numerous projects with the local comunity to increase the quality of service and amount of content available in Ilidža

**ALWAYS - Be ready to answer at
distress call no matter who called
us!**
